

Technical Specification For Scaffolding Tubes

Introduction :

The experience on the metallurgical field is a result of the starting up of new equipment with most up to date technology .

Technical Specification For Scaffolding Tubes :

- 1- Material : Extramild Steel , ASTM A 53 GR.A , GR.B
- 2- Welding : Longitudinal welding According to the Egyptian Standards ,and Din 2439 and ,
(ISSUE 1034 , 5061 Ard Iso R 26)
- 3- Outer Diameter : 48mm or 61 mm (according to the system)
- 4- Thickness : 2.5 mm : 4.00 mm (according to the system)
- 5- Thickness tolerance : + 12.5%
- 6- Mechanical Characteristics : Yield Strength = (207 - 241) Mpa
= (2.1-2.45) t / cm²
Ultimate Tensile Strength (R)= (331-413) Mpa
= (3.37-4.2) t / cm²
where : Mpa = 102 x 10⁻⁴ t/cm²
- 7- Max. Length can be delivered in any Length although commercial Length is 6.00m
- 8- Finishing : Tubes can be delivered either in black or Galvanized

Head Office
